

PURONICS® Micromax™ 7000

Pure Water Solutions®

Do you know what
your family is drinking?
Get maximum
protection for your
peace of mind.

The Micromax™ 7000 drinking water system is designed to produce crystal clear, great-tasting water. The quality construction and superior performance of this system ensure maximum protection of your family's drinking water for years to come. The 4-stage advanced technology is packed in a low-profile, sleek, durable design that fits easily under any kitchen sink. **Refresh Yourself®** with the peace of mind and high quality water that the Puronics® Micromax™ 7000 provides.

Food tastes better

Quality water for baby formula

Care for plants and aquariums

Better tasting beverages

PURONICS® Micromax™ 7000

Pure Water Solutions®

For maximum quality and performance

- ▶ Patented Easy Change™ sanitary filter cartridges automatically shut off water when removed for quick, no-leak filter replacement
- ▶ Operates on household water pressure and uses no electricity
- ▶ Stylish slim-profile design requires minimal use of space
- ▶ Kitchen Faucet Adapter allows easy connection to cold water supply - no need for needle valves or special plumbing
- ▶ Designer long-neck faucet blends into any kitchen décor
- ▶ Each system is subject to rigid quality control and testing, the results of which are proudly included in packaging
- ▶ Durable high-quality fittings, valves and construction ensure years of reliable, leak-free performance

Four stage drinking water solution

Stage 1 - Activated Carbon Filter

- ▶ High-capacity 5-micron graded density porous carbon filter
- ▶ Protects the entire system by removing dirt, rust and sediments as small as 2/10,000 of an inch
- ▶ Maximum contact time with filter media for de-chlorination with effective adsorption

Stage 2 - Ultra-filtration (UF)

- ▶ Super-fine filter creates a barrier to waterborne cysts like Cryptosporidium and Giardia, if present
- ▶ Self-cleaning process
- ▶ Reduces particulate matter as small as 1/10,000 of a micron

Stage 3 - Reverse Osmosis (RO)

- ▶ Unique filter allows water molecules to slowly pass through
- ▶ Reduces the majority of dissolved solids such as Sodium, Selenium, Arsenic, Nitrates and Nitrites, if present
- ▶ Reduces dissolved metals like Lead, Copper, Cadmium, Hexavalent and Trivalent Chromium, if present
- ▶ Impurities are automatically flushed down the drain
- ▶ Processed water is stored in a sealed and sterilized tank

Stage 4 - Activated Carbon Block Adsorption

- ▶ High density carbon block polishes water from storage tank
- ▶ Removes unpleasant tastes and odors
- ▶ Produces great tasting crystal clear water

A quick twist shuts off the water and removes the cartridge - no leaks, no mess.

System Tested and Certified by the Water Quality Association (WQA) against NSF/ANSI Standard 58 for the reduction of Cysts, Lead, Pentavalent Arsenic, Cadmium, Hexavalent Chromium, Trivalent Chromium, Selenium, Nitrites/ Nitrates and Total Dissolved Solids (TDS) and against NSF/ANSI Standard 42 for the aesthetic reduction of Chlorine Taste and Odor and Particulate Class III NSF/ANSI Standard 372 for low lead compliance.

Your Authorized Independent Dealer:

Contaminants or other substances which can be removed by the Puronics® Micromax™ system are not necessarily in your water. Operational maintenance and replacement requirements are essential for the product to perform as advertised.
